1 COMMANDER HEAT UP BUTT PLUG

Nasstoyz • (800) 556-5562
sales@nasstoyz.com

Oh, my Commander! Let me count the ways of how much I love thee. Your soft, silicone skin is like a rose petal's touch between my cheeks. Your comfortable size slides in without effort or pain (but always with lube) and your tapered base allows me to effortlessly kiss my cheeks together. The gentle ridges on your slender neck let my sexy sphincters grasp you like a tender lover in the night. Your three speeds are easy to change with the simple tap of my fingertip. And what is that I feel as you nuzzle deep inside my ravishing rectum? You're warm, too? Why yes, you are. My Commander! I will recharge you forever and never leave you (inside). You're mine forever.

Retailers, make sure you highlight the features of this smart, wonderful butt plug. It doesn't feel like others on the market and the warming sensation will make it easy for beginners to use. — Kim Airs

BATH & BODY:

2 ORGANICA NATURAL MASSAGE OIL

Shunga • (888) 328-0663
info@shunga.com

After a long week at work, I was so ready for a massage! The gorgeous art on the bottle already sets the mood for relaxation with a tranquil scene and colors. Upon opening the bottle, I took a whiff of the massage oil and was pleasantly surprised that the "natural" scent that the bottle described was accurate. The massage oil is completely scent-free, which is great because I already have my preferred aromatherapy scents in the air so all I wanted was for my partner to rub me down! It had a delicately smooth feel as it was applied to my body and as my partner massaged his hands all over my body. It was truly a magical experience! —Tara Pina

3 SEDUCE ME CURVED DOUBLE DONG

Nasstoyz • (800) 556-5562
sales@nasstoyz.com

This might be the smallest double dong I've ever seen! The ones I'm familiar with are intended to be shared with a partner, however the Seduce Me Curved Double Dong is made for enjoying DP without the help from a friend. Made from soft silicone, this curved dong provides deep G-Spot penetration while also indulging in backdoor stimulation. I appreciated that one end had a smaller width that wasn't too overwhelming for me (someone that isn't exactly an anal play pro); it made it incredibly easy to enjoy solo.

4 MISTRESS BY ISABELLA SINCLAIRE UNIVERSAL RESTRAINTS

XR Brands • (888) 261-4181
info@xrbrands.com

I really enjoyed these restraints. The back of the packaging gives visual representation as to how to use the restraints. A simple loop-through method locks the leather strap around the appendage of your choosing.

One of the selling points of these specific restraints is the soft leather, which allows the bearer to grip onto something rather than putting pressure on the wrist. The clips easily pass through the metal rings riveted to the other end allowing a simple and hasty snare. The distinct smell of leather backed up the box's material claims. The ease of use as well as general comfort concerns make these a reliable pair that can fit into a multitude of situations. We put a sizable amount of tension on the rivets just to verify strength and they proved their worth by keeping the subject restrained and not falling apart at the seams.
